

As this year inches ever closer to a close, we thought it would be an ideal time to highlight how the Fall Time Change can impact your road safety. We're also focusing on the dangers of "dooring" and how negligent drivers can injure cyclists in ways you might never expect.

Since next month begins the traditional season of giving, there are so many things in our lives we are grateful for and having wonderful relationships with you—our clients and referral partners— tops our list!

Enjoy these upcoming cool breezes and crisp mornings and thank you again for our relationship.

The Dangers of Dooring

Here at [Allen, Flatt, Ballidis & Leslie](#), we have seen negligent drivers injuring cyclists time and time again by not paying attention when they open the doors of their vehicles. Dooring can leave victims with serious injuries, costly medical bills, a considerable amount of missed work, and maybe even permanent disabilities. Here are some common dangers of getting doored, and ways to best avoid these serious accidents.
